

AAK Annual Convention 2026

SUMMARY

Redesign the existing AAK Annual Convention website into a completely new, premium, modern and highly interactive digital experience. This is a complete redesign of the information architecture, visual language, interaction model and user experience, focused exclusively on the AAK Annual Convention 2026.

PROJECTS

AAK Annual Convention 2026 — Complete Website Redesign | Build a working, responsive website centered on the theme “Shifting the Built Environment from Fragility to Resilience,” with Annual Convention as the sole focus and no Biennale content.

- Core event: AAK Annual Convention 2026
- Theme: SHIFTING THE BUILT ENVIRONMENT FROM FRAGILITY TO RESILIENCE
- Location: Diamonds Leisure Beach & Golf Resort, Diani, Kenya
- Convention dates: 16–19 September 2026
- Primary programme days: Official Opening (16 Sept); Climate-action and Sustainability + Policy, Urban Governance and Community Reform (17 Sept); People, Place and Community Resilience + Innovation, Technology and the Future of Construction (18 Sept); Post-Convention Build Tour (19 Sept)
- Include dedicated pages/sections for Programme, Speakers, Theme, Experience/Venue, and Registration
- Support programme timeline interactions, session visualization, speaker directory model, and live-state-ready UI components
- Build tours referenced: Ukunda Airport, Mwache Dam, Kisite Mpunguti Marine National Park / Wasini Island, Mombasa Lunatic Express
- Additional programme elements referenced: networking spaces, exhibition footfall, partner engagement, entertainment, team-building, closing gala dinner, Grow A Classroom mentorship and awards
- Implementation priorities include accessibility, performance optimization, component-based architecture, CMS-readiness, and reduced-motion support

SOURCE CONTENT TYPE

This source is a project/creative and technical website brief, not a personal employment or education resume.
